

European Flags

Just as the American flag is important to us as Americans, other nations have their own flags also.

Go to the website below:

<https://www.cia.gov/cia/publications/factbook/docs/flagsoftheworld.html>

1. Locate the flag for the European country that you will visit first on your Keynote Presentation. (The country that you drew from the bag)
2. In the box, on the attached page, sketch out **IN COLOR** your nation's flag.
3. Write the name of the country on the back and write your name below the country name.
4. Do not write anything other than the flag itself on the front.
5. You may use colored pencils, markers or crayons.
6. You may sketch out your flag first in pencil, and then color it in, but your finished flag must be in color.
7. Have fun!
